

Titan Electric

ASSOCIATED MATERIAL HANDLING

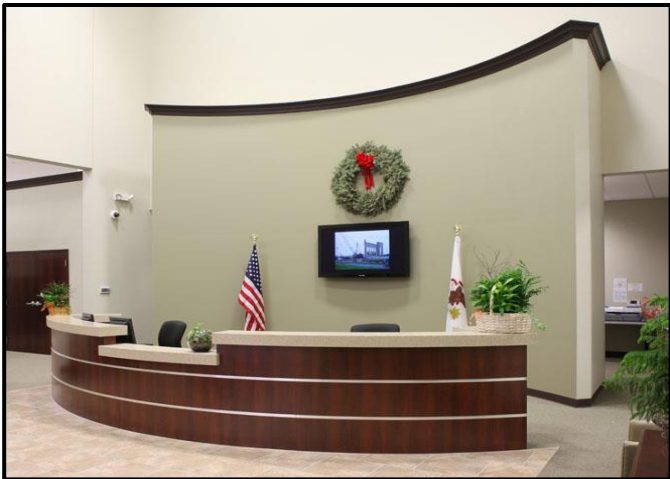

Titan Electric provided a variety of electrical and low-voltage services for Associated Material Handling's new corporate headquarters in Addison, IL.

Developed on a previously occupied industrial site, the two-story, 85,000 square foot, 30 foot clear ceiling height facility is home to all Chicagoland operations, including engineering, sales and distribution/manufacturing for parts and repairs.

Titan Electric completed its scope of work in just five months.

A partial list of the services implemented by Titan:

- Warehouse and office power distribution to owner - provided equipment
- Site lighting
- Energy-efficient lighting and controls
- UPS system
- Voice/data infrastructure
- Fire alarm

Clayco was the general contractor for the project with architectural services provided by Curran Architecture.

POWERING THE FUTURE
