

Titan Electric

Le Méridien Chicago – Oakbrook Center

Titan Electric was chosen as the electrical and low voltage contractor for Le Méridien Chicago – Oakbrook Center's \$25 million interior and exterior transformation at its Oak Brook, IL location.

Acquired by Starwood Hotel & Resorts Worldwide, Inc., Le Méridien is a Paris-born hotel brand, represented by 100 properties in more than 40 countries.

The renovated facility is 10-story building that serves as a hub for both business and leisure. It offers 172 guestrooms, a Presidential Suite and two Spa Suites, with each room containing a 48" flat-screen HDTV and Wi-Fi.

Guests can gather in the newly developed Le Méridien Hub™ experience, which re-interprets the traditional lobby into a social gathering place. Other features of the hotel include 3,500 square feet of event space, a spacious fitness center, a proprietary new bar, and El Tapeo, a sleek restaurant and lounge with a variety of meeting spaces.

Titan Electric's involvement included the installation of:

- 3,000 amp 480/277 volt service for building power
- 30 kw diesel generator for fire pump controller
- Electrical wiring in 172 guestrooms and two kitchens (located on the 1st and 9th floor)
- LED lighting and lighting control system

Titan Electric's Low Voltage Division involvement included the installation of:

- Wi-Fi system and Cat #6 wiring for data
- Coaxial cabling to each room and other areas of hotel
- Speaker system
- Fire alarm system with smoke evacuation

Plante's Hotel Renovation was the general contractor for the project.

POWERING THE FUTURE
